DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jaye G. Heybl on Wednesday, February 14, 2007.

The application has been amended as follows: Cancel Claims 1-11 and 37-40.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance: With regards to Independent Claim 16, the Applicant has sufficiently amended the claim to overcome the informal matters addressed in the 112, 2nd Paragraph rejection of the previous Office action, and has sufficiently defined a bent elongated perimeter light. The prior art fails to teach or suggest the combination of structural limitations claimed therein, specifically to the tube including a track, whereby each of the PCBs contains a washer to ride on the track and to mount the PCBs within the tube. All subsequent dependent claims are allowed.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
